TN/TP	max 1.60%	max 10%	max 10%
SNR/KI/ST ratio	37-44	42-50	42-50

Standard packaging options

Whole grain	Bulk
	500 kg bag
	25 kg sack
Crushed	25 kg sack

Crisp Malting Group Organic Malt fully complies with the strict regulations which govern the qualification of foods as 'organic'. These rules and systems, having their basis in EU law, apply not only to the handling and processing of the organic barley at the malting plant, but also through the supply chain from the condition of the land sown and the quality of the seed through to cultivation and harvesting. Thus, full supply-chain traceability is guaranteed.

Crisp Malting Group is fully approved to supply Organic Malt to the UK, EU, USA and Japan, and has strict controls in place within the organic certified production plant to malt organic barley to the highest possible standard, whilst adhering to the appropriate organic standards.
