

DR. RUDI

New Zealand

Origin: New Zealand. Initially called Super Alpha upon its release by HortResearch in 1976, in 2012 this variety was renamed Dr. Rudi in honor of the “father of New Zealand hops.” It is a high-alpha triploid bred from an open cross of Smoothcone.

Usage: Intended as a bittering hop, but like many of its fellow New Zealand varieties that followed, Dr. Rudi possesses an oil profile that suits modern craft styles very well. Appropriate for hoppy lagers, bitters and pale ales.

Aroma & Flavor Characteristics: Moderate. Sweetly grassy with overtones of lemon grass, pine sap, and dried fruit.

SENSORY HIGHLIGHTS

**Grass
Fruit
Pine**
